onesystem

onesystem design and manufacture unique modular solutions for display, retail, roadshow, interiors, showrooms, exhibition and digital applications. Our products are designed and produced in the United Kingdom and we have in-house capabilities for all aspects of design and production. We work closely with design agencies, retail, interior, exhibition companies and brands to provide a range of modular and custom solutions to suit a variety of display applications. All our products are designed to be light-weight, easily assembled and installed.

onesystem

OS1 profiles are designed for 3mm rigid panels such as foamex, aluminium composite, acrylic etc. OS1F is designed for tension fabric graphics. Units can be stand alone or joined together to form walls of different layouts. Options include, literature shelves, product shelves, backlighting and surface lighting. Both profiles can display double sided graphics and flat pack for easy transportation.
